

CZOLGOSZ PLEA OF GUILTY COULD NOT BE ACCEPTED.

LAW DECLARES THAT THE ASSASSIN MUST BE TRIED.

ATTORNEY FOR DEFENDANT ENTERS A PLEA OF NOT GUILTY AND THE TRIAL PROCEEDS — THE PRISONER CLOSELY GUARDED BY SHERIFFS.

BUFFALO, N. Y., Sept. 23.—White took his place on the In the Supreme Court of Erie county, Judge Truman C. White presiding, Leon F. Czolgosz was placed on trial today for the murder of President McKinley September 6th.

All entrances to the court house with the exception of one, were closed and the building closely guarded by the police.

There are but 150 seats available for the public, and when these were filled no one else was allowed to enter.

Promptly at 10 o'clock Judge

bench and court was convened, according to law this plea could not be accepted and on behalf of the prisoner asked that a plea of not guilty be entered.

The trial then proceeded.

The Trial Begins.

BUFFALO, Sept. 23.—Leon F. Czolgosz was placed on trial today for the murder of President McKinley on September 6th. The trial was in the Supreme Court of Erie County, Judge Truman C. White presiding.

The trial began at 10 o'clock, but long before that hour the streets in the vicinity of the city hall were the objective of many curious persons. The various entrances to the great building, with the exception of that on Franklin street, were closed and guarded.

Squads of police were stationed on every landing and in a double line inside the place of entrance to keep back the crowds, while in a station not far away reserves were ready to reinforce the detail on duty should the feelings of the people be aroused to the extent of rioting. Mounted officers passed slowly around every side of the structure and no one was allowed to stand on the sidewalk for a moment, so that at no time was the crowd large.

Few Saw the Prisoner.

No one outside of the building saw the prisoner as he was taken from his cell to the court room. His guards made use of the "tunnel of doors" under the street from the city hall and Czolgosz was brought into the court room only a few moments before the hour set for the opening of the trial. No

person was admitted to the building without a pass signed by the Chief of Police, and it was necessary to show this to every policeman on every landing and every corridor.

The officer at the door of the court room was especially vigilant and not only examined the passes but scrutinized the bearers critically before admitting them to the room. The interior of the city hall as well as the outside still bore the sombre draperies of mourning, and quiet was enforced, as befitting the occasion.

Meets His Attorney.

Counsel for Czolgosz saw him again this morning before the time for the opening of the court, but he had no more to say to them than on the previous occasions when they have visited him. In view of the meagreness of the opportunity for a defense, and the fact that the prisoner refuses absolutely to aid them, it is not probable that the entire proceedings may be completed within two days.

Defense Is Insanity.

"The mental condition of the assassin will absolutely be the only defense to be offered," are the words of Judge Titus, and there is no little expectation that the counsel will publicly abandon the case today or tomorrow and merely represent Czolgosz formally during the trial.

As a result of the examination of two alienists, Dr. Charles T. McDonald and Dr. Allen McLean Hamilton of New York, the question of insanity is eliminated from the subjects on which the defense can rely for support.

Part III of the Supreme Court of Erie county is a small room on the south side of the second floor of the City Hall. The enclosure for the bench and bar occupies over one-half of the floor space, while the remainder is given over to seats for the general public. Not over 150 of the latter could be accommodated, and these seats today were mainly occupied by the men summoned to serve upon the jury.

Czolgosz with his counsel occupied seats in the circle in front of the Justice's bench. The prisoner's chair was just back of that of Judge Titus and Deputy Sher-

iffs with their staffs of office were placed at various points in the room and quiet was enforced upon all.

The spectators' seats were filled very slowly, owing to the extreme care shown by the officers in the corridors in admitting those who applied, and it was not until "Court" was announced that the last one was occupied.

The Indictment.

At 10 o'clock the formal opening of the court was announced. Justice White entered through the center aisle and took his seat on the bench. The first business of the session had no relation to the case of Czolgosz. It consisted merely of calling the roll of grand jurors for the coming session and they were then excused until October 1. Clerk Fisher after a preliminary "Hear ye, hear ye" by the clerk, proceeded with the calling of the jurors summoned for the trial of the Czolgosz case. Of the thirty-six trial jurors called only one asked to be excused.

At 10:15 there was a bustle in the corridor and a squad of police brought in the prisoner. He was handcuffed to an officer on each side, while in front and behind him walked other uniformed police.

The prisoner was attired in a new suit of dark gray, a white shirt and collar and a blue tie. His face was cleanly shaven and his hair combed.

He sat down behind his counsel with two officers in plain clothes immediately in his rear.

He Pleads Guilty.

District Attorney Penny at once began the reading of the indictment.

He spoke to Czolgosz in a low voice, in fact so low that when the prisoner was asked to plead, he seemed not to understand what had been said. Justice White asked him:

"What have you to say?"

There was a moment's hesitation. Then the prisoner's lips moved as if to make a reply, but before he could do so his junior counsel, Mr. Lewis, arose

INSANITY IS THE ONLY PLEA FOR THE PRISONER.

EVERY DOOR IS GUARDED BY THE POLICE SO THAT NO ATTACK CAN POSSIBLY BE MADE ON THE ASSASSIN WHILE HE IS IN COURT.

to speak, not having seen the prisoner's motion.

Justice White, however, insisted that Czolgosz should speak, and the prisoner said: "I didn't hear what he said."

District Attorney Penny then read the indictment again in a louder voice and to the demand for a reply the prisoner, who was standing at the time, said in a very low voice: "Guilty."

Plea Not Permitted.

This plea, however, was not permitted to stand under the law, and a plea of "not guilty" was at once ordered by the court.

Mr. Titus, counsel for the defense, then arose and stated to the court the facts already known as to his connection with the case. He explained that the position of himself and his associates, Judge Lewis and Mr. Leadi, was a peculiar one and consisted mainly in making sure that all the forms of law and justice were observed in the prosecution.

Justice White in reply complimented counsel for the defense and said that the prisoner could have no better counsel and that whatever the outcome, it

would reflect only credit and honor on them.

Examination of Jurors.

The examination and swearing in of the jurors was then begun, the prisoner standing as each was sworn.

The first juror was summoned at 10:26. His name is Frederick V. Lauer, a plumber. He was examined briefly by the District Attorney and counsel for the defense. No objection was made and Lauer was accepted.

Richard J. Garwood, a street railway foreman, was next summoned. One of the questions put to him by District Attorney Penny was:

"Do you believe in the present form of government?" to which Garwood replied, "Yes."

Judge Lewis asked him if he would acquit a man if it were clearly proven that he was insane at the time the murder was committed. Mr. Garwood replied that he would. After a few questions from Judge Lewis, Garwood was accepted.

SAVED FROM DEATH BY THE PLUCKY ACTION OF A WOMAN.

WALTER KRAUTH OF ALAMEDA ATTEMPTS TO JUMP FROM BAY CITY BUT IS CAUGHT BY HIS FEMALE COMPANION IN THE NICK OF TIME.

Walter Krauth of Alameda attempted to jump overboard from the ferry-boat Bay City this morning on the 11:45 trip from San Francisco to Alameda Point. He was seated on the upper deck, aft, near the wheel house, and by the taffrail. A heavily built woman occupied the seat alongside him. Krauth muttered something incoherently, arose and sought to drop into the bay. His body went over, but the woman managed to grab one of his arms at the wrist and see held him and screamed. There were no passengers near by and there were but few people on board.

One of the crew, who was inside, on the lower deck, was surprised to see a man's legs executing strange gyrations in the air, outside of a window.

The spectacle of a hat falling into the water and riding the waves and the yells from the woman caused an uproar. Captain John Leale, master of the Bay City, quickly got the word and the big vessel was brought to a halt almost in a jiffy. Men were running about gesticulating and shouting, and the women acting hysterically.

Charles H. Butler, the jovial Elk, Aaron Fibush, the tobaccoist, and F. R. Porter, were among the Oaklanders who were witnesses of the tumult. Mr. Porter rushed to the upper deck and outside to see the incident of lowering the rescue boat from the davits. The crew, he declared, were slow and awkward and the boat was several minutes in getting into motion and descending even as far as the guardrail. Just then

Captain Leale hove into view and gave orders for the Bay City to go ahead. In his custody, a few feet away, was the would-be suicide. It seems that the sturdy woman who didn't care to give her name, clinging to him until succor came, and the seeker of a watery grave was hauled back to safety.

Mr. Porter gives it as his opinion that the Bay City's lifeboat crew needs a more thorough drilling, and that the stern davits, where the boat hangs, require mechanical attention. He adds that in case of a big disaster to the Bay City, or presumably to any other ferryboat plying on that line, there would surely be a long-drawn list because of inadequate relief service.

Mr. Butler and Mr. Fibush, as well as Mr. Porter, were all flabbed at the efficient style in which Captain Leale did his part of the duty.

The rescued man, who is about 40 years of age, is said to be named Walter Krauth, of High street, Alameda, a son of the late F. K. Krauth, publisher of the "Ensign." He was identified by description as a railroad baggage master. No explanation could be elicited from him, and it is charitable to assume that he was under the influence of stimulants. He was provided with a fireman's cap, and when the boat landed was led away in charge of a guard, who was to escort him as far as Park street in Alameda.

Before the identity of the man was disclosed this clue to his personality was taken: About 5 feet 6 inches; spare built; smooth face; prominent ears; large protruding yellow third eye; brown hair cut short on the forehead; attire—tan shoes, black coat and vest, fine-striped trousers, drab body; blue cravat, white stripes; metal ring pin; turned down collar; gold ring on third finger left hand; red striped shirt with fancy cuff buttons, etc.

And there were men on the Bay City who argued that the man should have been allowed to drop and extinguish his troubles, if he wanted to do so!

chief importance of the recent Boer successes consists in the encouragement they will afford to the burghers and their effect upon the Cape Colony loyalists.

"The paper regards the new activity and daring of the Boers as a crushing reply to Lord Kitchener's latest proclamation."

WHAT LONDON SAYS OF THE CZAR'S VISIT.

NEW YORK, Sept. 23.—Commenting upon the visit of the Czar to France, the London correspondent of the Tribune says:

The leader writers have on the whole ignored the speeches made by the Czar and President Loubet after Saturday's review. The Standard, however, remarks that it is a little curious to observe that in the midst of all the embattled display at Compiegne and Rheims the words of the central personages were ostentatiously peaceful.

FRESNO MAN IS APPOINTED.

Gets a Good Position at the Santa Monica Home in the South.

FRESNO, Sept. 23.—S. F. Reber of this city, but formerly of Portsmouth, Ohio, and Minneapolis has received word of his appointment as Quartermaster and Commissary of the National Soldiers' Home at Santa Monica, California, the appointment to date from October 1. Captain Reber has a splendid war record, serving in the Twenty-fourth Ohio Regiment throughout the Civil War.

It is of interest to note that he was Grant's signal officer at the historical battles of Lookout Mountain and Missionary Ridge, and as Captain of the Signal Corps in the Atlanta campaign under Hooker had the distinction of being the officer who first signalled to Vining Station, nine miles away, the fact that Atlanta had fallen. Captain Reber was succeeded by J. H. Simpson, who was in McKinley's regiment and was appointed also from Fresno where he had been a hotel keeper.

FIRST RAIN OF SEASON FOR SALINAS DISTRICT.

SALINAS, Cal., Sept. 23.—The first rain of the season was ushered in early this morning, accompanied by a heavy wind and continued for nearly four hours. The precipitation amounted to .35 of an inch. Thousands of tons of unbaled hay and an immense quantity of wheat, barley and other grain which, owing to the strike in San Francisco, the ranchers have been unable to ship, or place in warehouses, will be badly damaged if not lost entirely. Fruit is also injured. The estimated loss to the Valley will not be ascertained for several days. A further downpour is looked for.

TWO HIGHWAYMEN WILL WITHDRAW FROM ENGLAND.

Nearly Kill an Agent While Trying to Rob the Station.

LOS ANGELES, Cal., Sept. 23.—J. H. Lynden, station agent for the Salt Lake and Santa Fe Railroads at Hobart station, four miles southeast of Los Angeles, narrowly escaped death at the hands of two highwaymen last night. Two men, entered his office about 10 o'clock while he was awaiting the arrival of a train, and asked for tickets to Los Angeles. As Lynden turned to wait on them he was covered with a revolver and ordered to throw up his hands and shut his eyes. His pockets were rifled, and while this was going on Lynden opened his eyes. He was promptly struck in the mouth with the butt of a revolver. He closed his eyes and the robbers relieved him of his purse, containing \$150. The men asked him if there was a money drawer in the station, and when Lynden said no, one of the men struck him in the face and called him a liar. They then compelled him to open the drawer, from which \$149 was taken, all the money in the station. He was then marched up the railroad track and beaten over the head with a revolver until he dropped to the ground. One of the men said: "We had better kill him. Dead men tell no tales."

Lynden staggered to his feet and started to run. The men pursued, but they were evidently partially intoxicated and one of them stumbled and fell, and the other stopping to assist him. Lynden managed to escape. The alarm was given but no one in the small village dared tackle the robbers and they escaped unmolested.

WILL RENEW THEIR PLANTS.

Steel Company Is Looking Forward to Making Many Changes.

PITTSBURG, Sept. 23.—The Post says: "The reorganization of some of the constituent companies of the United States Steel Corporation, which was begun soon after President Schwab took hold of the greater company, is to be carried on again as soon as matters have quieted down from the strike. This was stated by one of the officials of the United States Steel Corporation, and it was also said that one of the first moves to be made will be the consolidation of the American Sheet Steel Company and the American Tin Plate Company."

Now that the strike is practically over, steel officials are looking anxiously for the renewal of the plants. The consolidation of the Carnegie Company, the American Steel Hoop Company and the National Steel Company under the management of the Carnegie Company is taken as the coming model of the other movements of this nature.

WILL WITHDRAW FROM ENGLAND.

William C. Whitney Announces That He Will Sell His Horses.

NEW YORK, Sept. 23.—W. C. Whitney confirms the report that he will withdraw his big racing stable from England and in future confine his racing operations to the American tracks alone. On this subject he says: "Yankee, Blue Girl, Nasturtium, or whatever horses might have been selected to make up the rest of the string I intended to send to England this fall will remain at home. My racing stable in England will be broken up."

Belmont. At the same time the Porpoise, the third of the five submarines being built at the same yards will be launched and christened by Miss Fannie Moore of Brooklyn.

RUSSIA AND FRANCE MAKE AN AGREEMENT.

WILL HELP EACH OTHER TO KEEP OUT INVADERS AND WILL NOT FIGHT IN CASES OF CONQUEST — ONE RESULT OF CZAR'S VISIT.

LONDON, Sept. 23.—In connection with the visit of the Czar to France the Vienna correspondent of the Times quotes the Wiener Allgemeine Zeitung which gives "from a well informed quarter" particulars of the origin of the Franco-Russian alliance.

The rapprochement began in 1891 when a French fleet went to Kronstadt but then only a defensive military convention was arranged to guard against the aggression of Germany.

This became an alliance when President Faure went to Russia in 1896 and the alliance was officially proclaimed by the Czar

in 1897. The present treaty is purely defensive.

It provides for mutual help with the whole army of either power against any enemy whereas the 1891 convention mentioned Germany only. The Austro-German entente definitely names Russia.

WORK OF THE INSURGENTS

Correspondent Tells of the Outbreak of the Colombian Revolution.

NEW YORK, Sept. 23.—A correspondent of the Journal and Advertiser gives the following on the outbreak of the Colombian revolution in that section:

When we first heard of revolutionists in this neighborhood two months ago they were 20 miles down the coast at a place called "Cocle," where they tried to persuade the master of a fast steamer calling there for cargo that they could make better use of the steamer than he could, he managed to keep his ship and go to sea with a half cargo. There were then about sixty or eighty of them at that point.

This episode caused the government to send a squad of about twenty-five soldiers to occupy the town of Boacas del Toro, so that it put it under martial law.

About August 14th we learned that a force of fifty rebels had occupied a place called Sunset Point, fifteen miles from the lagoon, and looted the Chinese shops there. A few days later the insurgents took possession of Old Bank situated about one and one-half miles from here across the channel.

From there they sent word into the town to surrender peacefully and save bloodshed. The authorities did not surrender, but sent to Panama for reinforcements, which arrived on Sunday, September 1st.

On Monday, September 2d, there was nothing done except to look over the ground and tell of the great things that were going to be done tomorrow.

It was learned that the insurgents had captured a gasoline launch, the Oia, belonging to Mr. Snyder, at Changuinola, a place seven or eight miles up the coast, so now they were supplied with better transportation.

On Tuesday, September 3d, they forced into use several launches and a small boat. With these they took a greater part of the troops from the town. When the enemy perceived that most of the forces had been brought away from the town they thought it was a good time to make a flank movement, so they loaded the Oia with their soldiers and started to land them on the beach of Shallow bay, above the town.

This was seen by the Colonel commanding the Government troops, who started four launches, with the ship loaded with men to intercept them. As soon as they got within range there was a brisk interchange of shots, the Government force doing its best to cripple the Oia so that she could not proceed. She suffered severely. On Wednesday, the 4th, the Government force got an old cannon that had been lying in a back yard for years, said to be a relic of the time of the great buccannier, who is credited by local tradition with having had a fort here.

At the meeting of the County Board of Education teachers' certificates were granted as follows:

High School—Amelia Newmark, Fannie T. Tyrrell, William H. Alexander, Josephine Rolle, Margaret Foster, Fanny D. Ball, E. H. Shibley and Miss J. E. Dow. Permanent Grammar Grade—M. A. Crooks, R. McQuoid, William Greenwell. Kindergarten—Charlotte Louise Morgan.

MECHANICS' LIEN FORECLOSED.
In the action of Hugh and Thomas P. Hogan against Henry M. Yerxa, Lulu Barry and others, Judge Hall this morning rendered judgment for the plaintiffs for the foreclosure of a mechanics' lien for \$118.22. He did not finish the work, nor were the Hogans paid for lumber they had furnished. Hence the suit.

SIGN ORDINANCE IS NOW A LAW

Mayor Barstow Signed the New Measure.

Mayor Barstow has signed the new sign ordinance recently passed by the Council, which took the place of the measure which Police Judge Smith declared to be discriminating in that under it, non-residents in this city could not be taxed for business signs.

The ordinance was accordingly amended, making it obligatory upon all business men, resident or otherwise, to pay a sign tax if they display signs on their place of business in this city.

AUDITOR BREED WILL CONTEST TAX LEVY.

Auditor A. H. Breed is looking up the law regarding the validity of the tax levy of \$1.25 on every \$100 of personal or real property made by the Council last Friday evening. He says: "I do not believe that the tax levy as it now stands is legal. While there is a State law providing for a levy of .05 per \$100 for parks and boulevards, yet a subsequent law passed by the State Legislature says that the charter of the city under which the levy is made is supreme.

"If that is the law I will take the necessary steps to bring the matter to a head. I do not expect a very pleasant two years in office, but where I see my duty I am going to do it. I cannot allow the estimates of the Council to stand if they are illegal."

It is the opinion of City Attorney Johnson, as expressed to Mayor Barstow, that the tax levy of the Council is not legal where the rate has exceeded the limit placed by the city charter.

SONOMA COUNTY IS VISITED BY THE STORM.

SANTA ROSA, Cal., Sept. 23.—Sonoma county was visited by a severe wind and rain storm last night, and while no great damage is believed to have resulted, later developments may show loss to the grape crop and some injury to prunes and other dried fruits.

The storm was preceded by slight showers Saturday night, which did little more than lay the dust. In this city the storm caused considerable uneasiness among the directors of the big street fair which is to be opened to night, but as the clouds are breaking and the sun shining, indications are now for a week of glorious weather.

CHICO GETS A LITTLE OF THE RAIN.

COLORADO MAN SHOOT INTO CROWD AT EMERYVILLE.

Charles Strange, colored, eighteen years of age, was taken to the County Jail last night by Deputy Sheriff Carline, and charged with assault with a deadly weapon, with intent to commit murder.

Strange has been employed about the Race Track at Emeryville, and is alleged to have shot into a crowd composed of about thirty young men and women, who were walking along an Emeryville street last night.

Strange claims that the crowd insulted him by singing "All Cools Look Alike to Me." He says that he would have paid no attention to the matter had it not been for the action of several members of the party, who referred specifically to him.

Strange is held in \$2,000 bonds, but it is said that his former employers will furnish the requisite amount this afternoon.

MRS. BULL TO GO BEFORE SUPREME COURT.

ON TRIAL ON MURDER CHARGE

SANTA BARBARA, Cal., Sept. 23.—The case of the People of the State of California vs. William Kelo for the murder of Harry E. Blochman at Santa Maria on the evening of July 3, was called in the Superior Court at 10 o'clock this morning before Judge W. S. Day. Besides the large number of witnesses and jurors present, the court room was crowded with spectators.

Mr. Blochman, the father of the murdered boy, the District Attorney E. W. Squier, Attorney J. W. Smith, assisting the District Attorney, the defendant and his attorneys, J. W. Taggart and Forest L. Alford occupied their places around the bench, and on their right sat the father, mother and two sisters of Kelo, the only ladies in the court room.

The work of securing a jury was immediately taken up and at 12 o'clock but three jurors had been secured. A special venire is expected before the jury is completed.

OFFICIAL STATEMENT ABOUT THE WEATHER.

SAN FRANCISCO, Sept. 23.—Forecast Official McAdie has issued the following:

The expected rains have occurred and from San Diego to Portland showers more or less heavy are reported. Conditions are still unfavorable for settled, fair weather over the greater portion of the Pacific slope. Heavy frosts are reported at Winnemucca and many northern points, while a thunderstorm has occurred at Roseburg.

A well defined disturbance extends from the Valley of the Colorado northwestward to Oregon. Another disturbance overlies Kansas and Oklahoma.

During the past 24 hours the pressure has fallen steadily over Nevada and Northern California.

The temperature continues from two to eight degrees below the normal in California.

CHARLES MARUBE IS ADMITTED TO CITIZENSHIP.

Charles Marube, a colored man, whose native land is the Island of Martinique, appeared before Judge Ellsworth today for the third time in an effort to be admitted as a citizen of the United States.

Marube, in his former examinations, showed a fatal lack of acquaintance with the national constitution, and was told to study the document with care before making another attempt at securing papers of naturalization.

This morning the persevering Marube appeared before the Judge with confidence in every feature. He answered several questions correctly, but insisted that Congressmen were elected by the President, and that the Governors made the State laws.

The Judge overlooked these trifling discrepancies, however, and made Marube happy by admitting him to citizenship.

Louis Schaffer of the Dewey and Fashion Stables on Saturday last conducted a very successful sale of horses, harness and vehicles, which attracted quite an amount of attention among the lovers of racing and blooded stock. The collection of animals comprised broodmares, carriage teams, roadsters and work animals.

The animals and prices were as follows: Lady Bird, mare, 4 years old, \$150; Bell Bird, mare, 5 years old, \$75; Grande, gelding, mare, 9 years old, \$125; Memo, son of Sidney and Elfr 2000; Turk, 9 years old, weight 1250 pounds, \$60; May Day, black filly, 4 years old, \$175; bay stallion brother to May Day, \$150; Ego, son of Electioneer and Columbine, \$35; a thoroughbred saddle horse, \$50; ten head of work animals, averaged \$125 a piece; three-seated rockaway, \$175; a phaeton, \$100; lot of harness, \$100.

The stock was the property of H. P. Livermore and was raised on Rock Ridge Stock Farm in the northern part of the city.

Next Saturday Mr. Schaffer will sell another bunch of stock, comprising 30 head of horses, 14 mules and 40 cows on the premises of John Mohr at Livermore. The sale will begin in the morning. It will be conducted on time basis in the matter of payment.

TESTIMONY IN SCHLEY CASE.

WASHINGTON, Sept. 23.—The Schley Court of Inquiry assembled promptly at 11 o'clock today with larger attendance than heretofore, but with fewer distinguished personages present.

It was authoritatively stated today that the Navy Department has no intention at present of bringing Sampson to Washington to participate in the inquiry.

An understanding was reached between counsel that such parts of the logs of the entire fleet participating in the fight in Cuban waters as either side desired could be printed.

Commander Schroeder on being recalled was asked if he desired to make any corrections in the official record of his testimony Saturday.

"There is one omission from Schley's remarks on the day of the bombardment of the Colon which I should like to supply," he replied.

"It is this," He said when he came aboard the Massachusetts that Sampson would be there on the following day.

He made the statement in connection with the remark that he was going in to sink the Colon."

Prisoner Stands Erect.

Horatio H. Winspear, a farmer, was challenged by the people and was excused.

George Kuhn, a baker of Buffalo, said his opinion of the guilt of the prisoner was so firmly established that no evidence could change it, and he was excused.

Silas Carner, another farmer, living at Claremont, had already made up his mind as to the guilt of the defendant; he could give him a fair trial on the evidence. However, he was accepted and sworn as the fourth juror at 11:34 A. M., less than an hour after the court opened.

During the examination of jurors the prisoner sat erect in his chair and gazed straight ahead at the back of his senior counsel. Beyond the rapid blinking of his eyes, he appeared unconscious. He made no effort at communication with his counsel, nor they with him.

Frederick Langbeine, a railroad section foreman, was excused by the prosecution.

George Rueli, a barber, next called, was a believer in capital punishment. Mr. Rueli is a member of the General Assembly from the Buffalo district.

AFTER THE ANARCHISTS IN NEW YORK.

NEW YORK, Sept. 23.—Immigration inspectors at the port of New York are exercising a greater degree of vigilance now than formerly as a result of the general demand for the exclusion of anarchists. A CASE OF EXTRAVAGANCE.

YOU never cut off three-quarters of a new cake of soap and throw it away! Yet you pay twice the price of Ivory Soap for a cake of "tinted" toilet soap less than half as large. Your little cake of toilet soap costs you four times the price of Ivory, for it lasts only half as long and costs twice as much. No money can buy purer or better soap than Ivory. If it came in dainty paper, all scented and colored, you would pay fifteen cents for a very small cake of it.

CANDIDATE FOR THE PRESIDENCY.

Senor Tomas Palma Wants to be the Ruler of Cuba.

NEW YORK, Sept. 23.—Next Saturday or sooner, Senor Tomas Estrada Palma will be proclaimed a candidate for the Presidency of Cuba, with the endorsement of all political parties and with absolute assurance of election when the vote is taken, says the Havana correspondent of the Herald.

This has been decided by the leaders of the several parties at a meeting called to read the platform, addressed to General Rius Rivera, by Senor Palma in reply to a request from these parties for an expression of sentiment on the various propositions propounded by the Cuban people.

The greatest questions involved were those of a reciprocity treaty with the United States, a permanent treaty as prescribed by the Platt amendment; the manner of the payment of the Cuban army for services during the revolution, the system of collecting revenue for governmental maintenance and the ownership of the Isle of Pines.

The leaders accepted Senor Palma's platform by a vote of 23 to 2. Great enthusiasm prevailed among Senor Palma's friends. It is believed he will be elected by an overwhelming majority. The convention is awaiting the return of General Wood to settle the matter of the electoral law.

Ruhstaller's Gift Edge
Steam beer in bottles at Hansen & Kahler's, corner Eighth and Webster. Phone Main 458.

NEW YORK, Sept. 23.—In financial circles the opinion is growing that there will have to be further borrowing by the British Government as the result of the continued fighting in South Africa, says the London correspondent of the Tribune. The only relief to the drain upon the resources of the nation is the money which is expected to be realized by the sale of arms belonging to those irreconcilable burghers who have left their wives and children to the care of Lord Kitchener.

Commenting upon the military situation the correspondent says: The newspapers are clamoring for energetic prosecution of the struggle and are pleased to be able to print Lord Kitchener's announcement of the capture of Koch's commando and Lorrinos commando.

The apparently inexhaustible supply of ammunition which the Boers have at their command is the subject of considerable talk. A serious state of things prevails in Cape Colony from the Orange river to the sea. It is in a condition of open or incipient rebellion. For the first time it is now known in this country that Scheepers succeeded in capturing the loyal delegates of their return to their homes in Outschchoop from Welcoming the Duke of Cornwall at Cape Town.

PRACTICAL JOKER AT WORK AT NILES.

NILES, Sept. 23.—It appears now that some practical joker, in an effort to be funny, caused a rumor to be circulated that Miss Rosa Bliss of this place had married at Watsonville a few days ago Horace Hall, a former resident of Livermore, but at present residing at Watsonville. The word reached the father of the young lady, and he, believing it to be true, expressed his disapproval of the match, not because he had anything against Mr. Hall, but because he did not wish his daughter to marry. P. F. Bliss, a brother of the young woman, in question, said today: "My sister, who was visiting near Watsonville and San Francisco for a week, is like myself, at a loss to understand who started the rumor. I am of the opinion, however, that it was some practical joker who was attempting to be funny. I am trying to find out the author of the fabrication, and, should I succeed, will have no hesitancy in making public his identity."

TRIAL OF C. G. ADAMS IS BEGUN.

Technical Point Raised by Attorneys for the Defense.

The trial of Chas. G. Adams, the former Episcopal clergyman who shot and killed J. G. Jessup at Berkeley several months ago, was begun this morning in Judge Melvin's court.

Adams was represented by L. S. Church, Charles E. Snook and M. A. McConaghy, while District Attorney John Allen and Assistant District Attorney T. W. Harris represented the people.

At the beginning of the proceedings Attorney Snook entered a technical objection to the manner in which the trial jury was drawn. The objection was based on the alleged selection of the panel by the Superior Court judges instead of by the Board of Supervisors, and upon the allegations that certain members of the jury had been improperly excused; also that the Sheriff had intentionally failed to summon certain jurors.

The question of the selection of the jury by the judges rested upon the question as to whether the present population should govern the procedure of selecting a jury, or whether the number of inhabitants of the county at the time the Constitution went into effect had bearing upon the process.

The challenge of Attorney Snook was contested by District Attorney Allen, and Deputy Sheriff William Holland was examined as to whether he had made proper effort in summoning the jurors.

Holland testified that he had not omitted to exert every effort to summon each jurymen upon the panel and stoutly denied that he had purposely overlooked anyone.

Attorney Snook claimed that Holland had not performed his full duty in the premises, and entered an objection, based upon the Deputy's testimony, which Judge Melvin promptly overruled.

The question of the choosing of the jury by the Superior Court judges then came up for discussion.

Attorney Snook declared that the census of 1890 showed a population for the county of 93,864, and that the constitution set forth the rule for counties of less than 100,000, making the selection of a trial jury the duty of the Board of Supervisors.

District Attorney Allen contended that the county had since reached and passed the 100,000 mark, and that the law as set forth in the constitution went into effect immediately upon the increase in the population reaching the dividing line as counties are classified.

"In counties of over 100,000," said District Attorney Allen, "the constitution provides that the trial jury shall be selected by the Superior Judges and I submit that the law has been carried out in the present instance."

The argument of the District Attorney was evidently a voicing of the opinion of Judge Melvin, for the latter promptly overruled the objection of the defense and ordered the attorneys to proceed in the trial of the case. There is every evidence that no point will be overlooked in the defense of the ex-priester.

The defendant appeared to take little interest in the proceedings this morning. His daughter was seated at his side but they held no conversation.

The selection of the jury will consume the entire afternoon session.

Wives:

Let me tell you a secret, for I speak from experience. When meals are behind time and are badly cooked; when the house is full of smoke and everything covered with dust—it is all the fault of the old coal-stove—you need a good gas stove. Tell your husband this. It will take about three months to get it into his head—I was four—and if he does not appreciate facts just call his attention to the difference in cost. In any event you should be well fixed by Thanksgiving. This is strictly entre nous.

A COMPETING CABLE.

While we have been talking so much and doing so little about laying the Pacific Cable, England has been steadily at work and we are now confronted with the announcement that the British government has completed its preliminary arrangements and that the actual laying of the cable will be commenced early next year. The wires will be stretched between Adelaide, South Australia and Vancouver, British Columbia, the route following being as direct as possible, consistent with the submarine mountains disclosed by the surveys in the South Pacific.

Unfortunately, however, for our commerce, the cable will not touch at any point where the American flag is flying; it being declared impracticable to even make a landing in the Hawaiian Islands. The result will be that we will be in as helpless a condition as heretofore, for the establishing of communication between Canada and Australia cannot advance our interests; on the contrary it will further the prestige of Vancouver as a Pacific Coast port. This therefore brings up again in a very pointed manner the necessity of laying our own cable without further delay and in view of the competition with which we are about to be confronted, Congress should procrastinate no longer but should take the needful steps at the next session this winter.

There is no question as to where President Roosevelt stands on the proposition, for in addition to his general declaration that he will carry out the McKinley policies he has particularized the Pacific Cable and has declared himself heartily in favor of it. Roosevelt's practical training, first as Assistant Secretary of the Navy and then as a Colonel Commander in the Cuban campaign has shown him how much our military and naval interests are dependent upon prompt communication, while from a commercial standpoint it is self-evident that we cannot develop the trade of our Oriental possessions from our present long-distance range. We must be in touch with them so that a sharp market fluctuation can be promptly handled and the ordinary exigencies of business disposed of without a break of several weeks, in fact every argument is for the cable and not one against it, not even that of expense, for it has been conclusively shown that it would be self-supporting. The Pacific cable should therefore be made an issue by the Western Congressmen delegations this winter and if they will all pull together and go at the work earnestly there is no question as to the result.

Here is a pointer for California dairy men. Our consular agents report that butter is greatly in demand in China. Shanghai alone takes about \$100,000 worth of European butter, packed in half, pound and two-pound tins, the selling price being about 60 cents a pound. Extra California butter packed in one-pound glass jars, brings \$1.75 per pound though the sale of such a high-grade article is limited. Packers are advised that a good brand of butter, once well introduced, will have a permanent sale. Japan and the Philippines are also said to be promising markets for good butter.

SEEKING REPUBLICAN CONTROL.

Although it is true that factional differences are being asserted very strongly among the Republicans in the municipal struggle across the bay, the Democrats can take little consolation from that fact, for they are even more rent by internal strife than are their opponents. That this will be a Republican year over there is in the nature of an accepted fact, and unless some very serious blunders occur in the make-up and handling of the party ticket, there is no reason why it should not be successful from top to bottom.

San Francisco, though, has always been a hard place to gauge politically. Like most of the large cities, its tendency seems to be Democratic, but that party lines are not strictly drawn is shown by the remarkable switching in that regard that has occurred in late years. For example, after giving Budd (Democrat) 12,000 majority for Governor, it reversed itself four years later by giving Gage (Republican) 5,000 majority for the same office, while the year it declared itself for a Republican President by going 10,000 for McKinley it went about 5,000 for Democratic Mayor.

Proofs in abundance are therefore in evidence of the necessity of nominating strong and popular men if the Republican ticket is to be carried, and it is the knowledge of this that is making those in control of affairs hasten so slowly. But for the strike it would have been an easy task to select an available man for Mayor, but the unfortunate conflict between capital and labor has brought about so many complications that most of the ordinarily desirable people cannot even be considered. Never before has there been a more striking instance of an opportunity being created, and there will undoubtedly develop the right kind of man to meet it, for the Republican leaders are making a very careful search and are thoroughly weighing every condition attending those mentioned for the honor. Republican control of San Francisco during the next two years will have a marked effect upon both the State and legislative campaigns that will occur during that time, so members of the party outside of the metropolis itself are in a way as much interested in the outcome as are the San Franciscans.

THE DEFENSE OF CZOLGOSZ.

It savors somewhat of the ridiculous to read the elaborate preparations that are being made for the defense of Czolgosz and how the eminent counsel who have been detailed in his behalf are holding conferences to determine the lines that they will follow at the trial. Here stands a self confessed murderer caught red handed in his bloody crime, and guilty of a willful homicide beyond all peradventure of doubt, for volumes of proof exist as to the premeditation with which he planned his assault and the absolute lack of anything that could be called justifiable motive. One is inclined not to look too harshly upon the man who, in the heat of passion, and seeking to adjust some wrong, slays another, but there is neither pity nor sympathy for the wretch who plots and plans to take the life of a fellow being who has never injured him in any way.

Czolgosz is what is termed a cold blooded murderer. In the first place, after preparing his plans he waited for days in order to get the best opportunity to put them into execution, and secondly, he shot down his victim without giving him a chance to defend himself. Only a coward would take life in that manner. The Western cowboy is not over-punctilious but sooner than kill his direct foe in cold blood he will give him an opportunity to "heel himself" before assailing him. So it has been every where and at all times when there is a spark of manly feeling in the would-be murderer's heart and he who departs from this unwritten code is ever stamped a cur and a coward.

As to the plea of insanity which will probably be advanced in Czolgosz's behalf, it must not be entertained. He is not a lunatic nor an idiot irresponsible for his actions, and the fact that his mind is in such a depraved condition as to lead him to kill an innocent helpless man in order to right a fancied social wrong, should not protect him from the scaffold. Both as a punishment for himself and an example to others, Czolgosz' life must be taken from him and no matter how eloquent his counsel may be, or how devious the legal path through which they may take this case, we feel satisfied that the jury of American citizens who will sit in judgment upon him will so decree.

The Burlington Road is going to advertise itself by distributing 150,000 Japanese fans. The idea doubtless is to drive away the hot air circulated by the representatives of other lines.

WEAK DIGESTION.

Indigestion and Dyspepsia have wrecked many lives. People who are weak and miserable should know that health would return if the digestion were made normal. This is just the condition Hostetter's Stomach Bitters bring about. It cures constipation, biliousness, nervousness, liver and kidney troubles, and produces sound sleep. It will also prevent Malaria, Fever and Ague.

It has no Equal. HOSTETTER'S STOMACH BITTERS.

DR. PIERCE'S Golden Medical Discovery

"I had suffered from indigestion, and only those who have suffered from it know what it really is," writes Mrs. M. J. Fagan, of 1613 East Genesee Street, Syracuse, N. Y. "I had severe attacks of headache and dizziness with cold hands and feet; everything I ate distressed me, bowels were constipated, and I was growing very thin and nervous. I cannot half express the bad feelings I had when I commenced taking Dr. Pierce's Golden Medical Discovery. I took nine bottles of the 'Discovery' and several bottles of the 'Pellets.' I commenced feeling better with the first bottle, and kept on improving. Now I am so greatly improved in health my friends often speak of it. I most heartily recommend those medicines to all suffering as I was."

PERSONAL AND SOCIAL NOTES.

Two Weddings of Interest Which Took Place Saturday Evening.

On Friday evening, the 13th inst., at their residence on Myrtle street, Mr. and Mrs. D. P. Hughes entertained a number of young people, friends of their son, Robert Hughes, whose birthday anniversary it was.

The parlors were prettily decorated with flowers, and a delightful time was had by those fortunate enough to be present. Among the guests were several well known musicians, and although the musical program rendered was strictly an impromptu one, it is seldom surpassed in artistic merit. The selections rendered included the sextet from Lucia, with Mrs. Arthur Bessey, soprano, Miss Floyence Juliette, contralto, Robert Hughes, baritone; Mr. Hunter, first tenor; D. P. Hughes, second tenor, and Gwilym Hughes, basso. Vocal solos were also rendered by Mrs. C. K. McMurtry, Miss Georgie Cope, Mrs. A. Bessey, Miss Florine Juliette; Robert Hughes sang Wagner's "Song of the Evening Star." Miss Margaret Davis of San Francisco, Miss Grace Smith of Berkeley, and Will King the well known organist, delighted with instrumental selections on the piano. Mr. Rudolf Buckley gave additional pleasure by several violin selections. Mr. Buckley was formerly a pupil of Mr. Llewellyn Hughes, the violinist, who is now winning a name for himself in Europe, where he is studying under a well known artist.

Speech as well as song served to make the time fly quickly, and bounteous refreshments added to the occasion.

Those present were: Mr. and Mrs. D. P. Hughes, Mr. Robert Hughes, Mr. and Mrs. Arthur Bessey, Mr. and Mrs. C. K. McMurtry, Mr. and Mrs. G. Hughes, Miss Ethel Astorstone, Miss Buckley, Mr. Rudolf Buckley, Miss Georgie Cope, Miss Grace Smith, Miss Margaret Davis, Mr. William King, Mr. Jessie Dillert, Mr. Hunter and Mr. Gwilym Hughes.

Mr. and Mrs. Edward P. Baggot have gone for a two weeks' outing to Monterey, Del Monte and Capitola.

C. A. Appeldorn has returned from Santa Ana Springs, Lake county, much improved in health.

A very pleasant evening was spent at the home of Fred Clark, September 20, when his fruitvale friends joined in giving him a surprise party. Music and games were indulged in, after which refreshments were served. Those present were the Messrs. Will and Walter Stephens, Geo. Kennedy, Ernest Aiken, Walter Ingham, Ed Siquiera, Ed Evans, Rev. H. B. Mowbray, Al Smith, Ed Salbach, Scott Howatt, Al Clarke and Fred Clarke; the Misses Rose and Gertrude Maurer, Lottie Carr, Annie McArthur, Florence Stephens, Ray Loper, Gertrude Smith, Eva Pease, Lottie Cettinire, Georgie Evans, Lou Sequiera, Mr. and Mrs. Clark, Stella Clark and Miss Josie Bernama-you.

D. E. Gilson of Oakland is also at the Astor, New York.

George W. Grayson of Oakland is at the Netherlands, New York.

Miss I. Schwerdt and Mrs. Uhl of Oakland are at the Union Square, New York.

The wedding of Miss Mattie Leonard and James Hopper was solemnized Saturday evening at the residence of Mr. and Mrs. Joseph E. Leonard, parents of the bride, at 1052 Ellis street, San Francisco. The bride formerly resided in Alameda, where she has many friends. The groom is at present instructor in French at the University of California. He is also prominent in football work. For several years Mr. Hopper was a leader in the University football team, being one of its most active members. Dur-

THE STARS AND STRIPES HALF-MAST.

By Colonel Fay Butler, formerly of Oakland.

Let poets chant a requiem,
Guns fire a solemn blast,
Gloom spread throughout America—
Our banner is half-mast.Our nation's emblem of the free,
With red and blue and white,
Is once more draped in sombre pall,
A weeping, mournful sight!When Lincoln fell by villain's hand
A gloom o'er all was cast,
As widely floated to the breeze
The stars and stripes half-mast.Next Garfield's death, in manhood's
O'er all a horror cast,
When by his vile assassin's wrath,
The flag was struck half-mast!Then Grant and Blaine, brave counselors,
Met their reward at last,
And from each hallowed weeping fell
The stars and stripes half-mast!And then, when slimy waters
Moaned above the gallant Maine,
A Spanish hell-born treachery
Dragged our flag half-mast again.And now we stand, with measured breath,
Our President has been slain;
An anarchist has caused his death,
And our flag half-mast again.

Analysis of J. F. Cutter Whisky.

In our analysis of the sample of whisky left with us by you we find the alcohol by volume to be 47.13 per cent and by weight 33.50 per cent; the extractive matter amounts to 0.85 per cent and the inorganic matter to be but the minutest of traces.

As the result of those and other tests we find the whisky to be free from all abnormal or deleterious ingredients; to be up to the standard strength, and to constitute an absolutely pure article.

LARGE CROWDS AT OAKLAND TRACK.

Chub Russell Distinguishes Himself in the Saddle at Emeryville.

Notwithstanding the threatening weather of Saturday, the grand stand and betting ring at the Oakland Track were crowded with the largest gathering of the meet.

Betting on the special trot was light and shifting, but the play on the running events was heavy.

The meeting is to close Wednesday, when nearly all of the stables will ship to Los Angeles, where a race meet is to open Saturday, September 28th.

A more successful meet, both from a sporting and financial standpoint, has never taken place at Emeryville. The weather up to Sunday night has been ideal, and the prospects are favorable for the remainder of the meet.

Chub Russell, who is soon to depart for Austria, where he will join the delegation of American riders, distinguished himself Saturday by landing four winners. His work was of the first order, and his qualities as a rider and strong finisher should land him at the top of the heap on the other side.

George W. Kingsbury carried off all the honors in the special trot. He drove Lynam, 2:10 1-2 and through an amateur his work compared favorably with that of his professional opponents. Through his clever rein work he captured the second, third and fourth heats, and the race.

The following card was offered today and enjoyed by the usual large crowd:

First Race—2:14 trot; mile heats; 3 in 5. Dan W., Oskio, Alta Velo, Boydelia.

MEMORIAL SERVICES AT METHODIST CHURCH.

The Grand Army veterans held memorial services in the First Methodist Church last evening. The church was crowded to the doors.

Special music was rendered by the regular church choir under the leadership of J. M. Robinson. The church was appropriately decorated with the symbols of mourning. Rev. E. R. Dillon, pastor of the First Methodist Church and Rev. A. T. Needham, who until a few days ago was pastor of the Eighth Avenue Methodist Church, were the speakers. Both the clergymen were at one time soldiers and are now members of the Grand Army.

PROF. ANDERSON TELLS WHY SCHOOL WAS KEPT OPEN

Anderson Academy, Irvington, California, September 21, 1901.

EDITOR TRIBUNE.—Dear Sir: Remembering as I do the kind manner in which the Oakland TRIBUNE has treated me in the past, I am the more sorry that my absence yesterday prevented my giving an indignant negative answer to your telephone message.

In accordance with our settled and unalterable policy we held our own services in our school on Sunday morning last. The chapel services were impressive, and were based on the grand confession President McKinley made on his dying bed, a confession which was the mature fruit of a Christian life. The Sunday evening services were brief, but lessons were again drawn from President McKinley's acceptance of the Bible as the revealed will of God. On Thursday evening as much was said and done in recognition of the great loss the nation sustained as seemed befitting the time and place. Immediately after it was known that Governor Gage had issued his proclamation a situation was held, and a line of action decided on to prevent the day from becoming a play day. We did as we did that there might be the least interference possible with the solemnity we supposed all would desire, and certainly we felt. Yours very truly, WILLIAM WALKER ANDERSON.

OAKLAND LOSES TWO BASEBALL GAMES.

COL. WEINSTOCK IN THE PULPIT.

Sacramento Merchant Lectures Before the College of Religions.

Colonel H. Weinstock of Sacramento lectured before the College of Religion and Ethics at the First Unitarian Church yesterday morning on "Moses the Great Man."

A large portion of the lecture was devoted to a rapid sketch of the life of the Hebrew prophet.

"The task which he undertook," said Mr. Weinstock, "was stupendous. He was the leader of a people who had been slaves all their lives and for a generation before, and he was giving them all the liberty it was possible for man to have. In return they reviled him and cried for the flesh pots of Egypt, as against the free food which they were forced to secure for themselves. He labored with them and slowly built up his government of individual freedom and righteousness. His laws were just and the same for himself for the most common man. His system of government was grand and has stood through the centuries which followed as the foundation for all nations that would survive. His government was the first to build a foundation of equality, justice and liberty and out of it and through it, he moulded a people which have been among the world's greatest. It could be truly said of Moses, 'Where is there in this or any other land a man so great?'"

FEARS SHE WILL BE MURDERED.

Mrs. Elda Earl Appeals to the Police to Give Her Protection.

Fearing that her life would be taken by her husband, Mrs. Elda Earl, residing at First and Linden, swore out a warrant for the arrest of Walter Earl. The case was continued in the Police Court this morning until tomorrow to file a complaint.

Mrs. Earl says that she has not lived with her husband for two years, but on several occasions Earl while under the influence of liquor has made attempts on her life, once with a knife and another time with a pistol.

Earl, she says, has been away for some time, but returned suddenly, making his appearance at the cannery at Third and Linden, where she is forewoman. Earl is alleged to have told the girls working in the cannery that his purpose in returning was to kill his wife.

Mrs. Earl further says her husband was arrested in Fresno county, and that he is a dangerous character and would not hesitate in taking life to satisfy his revenge.

A NEW PASTOR SPEAKS IN EIGHTH AVENUE CHURCH.

The pulpit of the Eighth Avenue M. E. Church was filled yesterday by the new pastor, Rev. W. C. Gray, who succeeds Rev. A. T. Needham. The new incumbent has been a missionary since he was 22 years of age. He was ordained after his discharge from the Union army in 1865. He entered the California conference in 1898. He was the presiding elder in Nevada for several years. He became president of Spokane University, Washington, in 1898. Since then he has been busily engaged in the work of the church in various sections. His most recent services were rendered as pastor of the M. E. Church at Pacific Grove. The text of his sermon, yesterday, was: "The Church's Resources for the Universal Conquest of the World to Christ." In the evening he spoke on the subject: "He Answered Not a Word."

TEAMSTERS WANT TO GO TO WORK.

They Are Weary of the Sympathetic Strike and Want to Earn Money.

At a meeting of the Brotherhood of Teamsters, last night, it was decided that the men who have been out of work on a sympathetic strike with the teamsters of San Francisco could go back to work at their old positions provided they did not work with non-union men.

Some of the men were not satisfied with this understanding.

At the meeting the People's Express Company was not represented and it is not known how the management will consider the resolution of the Brotherhood of Teamsters.

For some time past the Merchants' Express has been working its men as part owners of the concern, having issued a certain amount of stock to each of the teamsters.

Union men who held out against such inducements claim that the Merchants' drivers have not acted fairly and demand that they be discharged as a condition to the return of the union men.

The People's Express will take back all their men.

FUNERAL OF THE LATE JAMES MUNSELL JR. ON SATURDAY.

The funeral of James Munsell, Jr. was held Saturday afternoon at 2:30 o'clock from the Trinity Episcopal Church. A large number of friends gathered to pay the last mark of respect to the deceased. A large number of floral offerings were sent. Rev. John Bakesell, pastor of Trinity Episcopal Church, conducted the impressive services.

A quartette composed of Messrs. Wilkie Asplund, Rowlands and Carver rendered "Lord Let Me Know Mine Own Mind," "Lead Kindly Light" and "Good Night" very effectively.

The pall bearers were Colonel George C. Edwards, Dr. Charles N. Ellinwood, Charles Fish, Stephen T. Gage, Dr. Henry Gibbons Jr., Dr. George Moore and John Richards.

The interment was in Mountain View Cemetery, and was attended only by the immediate members of the family.

The deceased was well known in life insurance circles, both in this city and in San Francisco. He was connected with the Mutual Life Insurance Company of New York for thirty years and was its California agent. He died in 1894, on the Vanderbilt yacht "North Star," and has resided continuously in the State ever since.

PLEADS NOT GUILTY TO CHARGE OF LARCENY.

A. J. Lynn, a member of the Plasterers' Union, who is accused of having stolen the seal of the Building Trades Council, pleaded not guilty to the charge of petty larceny in the Police Court. His trial was set for October 3. He was not represented by an attorney.

The warrant charging Lynn with stealing the seal was sworn to by President A. P. Ward of the Trades Council. Lively developments are expected during the trial relative to certain dissensions of a political character, which are alleged to have disrupted the Trades Council into factions.

The Kind You Have Always Bought Bears the Signature of 

FIRST RAIN OF THE SEASON.

Little Damage Will Be Done if the Rain Does Not Continue.

STOCKTON, Cal., Sept. 24.—The first rain of the season fell in this locality last night. It began about 3 o'clock this morning and continued furiously until 3 had fallen. This forenoon there was another sharp shower with indications that the storm is not yet over.

Grain, hay, fruit and beans are in a fair way to suffer considerable damage should the storm continue. There is considerable grain still sowed in the fields owing to the strike conditions at Port Costa and San Francisco, and unless this is moved immediately the damage will be great. It will stand an inch and a half of rain, however, without material damage if it is not allowed to remain in the fields.

Damage to table grapes and figs is greatly feared through cracking should a warm sun come out after the storm. Clearing weather following another day of rain would be disastrous. There has hardly been sufficient rain now, however, to work great damage. There is still considerable hay not under cover, and should the storm continue this will suffer greatly. Clearing weather, however, would place it right again, unless the storm should last several days.

Beans will not suffer unless the storm be prolonged for three or four days. There is no damage to beans at this writing. It would require a prolongation of the storm to damage pears, peaches and drying prunes.

SANTA ANA, Cal., Sept. 23.—Threatening weather, but no rain has fallen as yet. Indications favor rain within 24 hours. A heavy precipitation would do considerable damage to fruit, grain and beans.

FRESNO, Sept. 23.—The Weather Bureau reports only a trace of rain this morning. Ample warning to stack raisins on trays and cover grain in the field was given but it was such a beautiful sunny day yesterday that it is feared few heeded the warning and that considerable damage will result for the raisins had reached the tray-turning condition in the process of sun curing.

Last year the first rain was on September 23rd, and the next on October 3 continuing to the 4th and 5th and then jumping to the 19th and 23rd. Considerable rain is expected unless there is a material change in conditions in the next 12 hours. What damage has been done by the morning shower is problematical, but so far no great harm has resulted. The warning to raisin men has been not to unstuck or uncover.

SAN JOSE, Cal., Sept. 23.—The first rain of the season came early this morning. The drops fell gently for two hours, laying the dust and purifying the air and doing no harm anywhere. The fruit men were warned in time and all prune trays left on the ground were quickly housed. No damage to grapes has been reported. The sky is still overcast and more rain is promised. The fall for the shower amounted to .22 inches.

SAN DIEGO, Cal., Sept. 24.—San Diego county was visited at 4 A. M. today with the first rainfall of the season, light showers continuing until about 9 o'clock. It was general over the county and was an off-shoot of a storm which passed east of here. Further showers are expected today.

LOS ANGELES, Cal., Sept. 24.—The weather here is clear and cool. There are no indications of rain and rain in any considerable amount is unusual at this season, though as much as .71 of an inch has fallen in September.

SACRAMENTO, Cal., Sept. 23.—A heavy rain fell this morning resembling a cloud-burst, and lasted for fifteen minutes. There was considerable rain during the night also. It is reported that the rain is general in this section. Damage to table grapes and to outstanding wheat is thought to be inevitable.

C. Hutchinson, violating bicycle ordinance, \$2 or 1 day; Capt. Batista, William Cordy, violating bicycle ordinance, bail forfeited; W. B. Duddy, same, judgment suspended; G. H. Another Promising Copper Property

Captain De La Mar owns and operates the great Bully Hill Copper Mine in Shasta County, Cal. He treats its ores with his newly erected 150-ton smelter and acknowledges that he produces \$5,000 per day in values. It is safe to assume that he extracts \$50 per ton net profit from each ton of ore treated, or a net profit of \$4,500 daily. The Shasta May Blossom Company owns the adjoining property and we anticipate as flattering success. We expect to erect a smelter having a capacity of not less than 500 tons daily. Figuring on the same basis our daily net profit would be \$15,000. As every day is a working day, this means an annual net profit of \$5,475,000. Cut this profit square in two and we have \$2,737,500 annual net profit. Discount this profit 33 1/3 per cent and we have \$1,825,000 annual net profit. This means a dividend of approximately \$1.25 annually on each share of the capital stock of our Company. A stock that will pay \$1.25 annually is worth at least \$10. What is your chance on 1000 shares that will cost you \$150 today? You may have to wait two full years. Is it worth it? Call at our office and we will have a good talk about it. A better proposition was never offered in California. We have interesting matter at our office. Call in the morning, in the afternoon or in the evening.
